## WHAT WE OFFER

### Mobile bar built in vintage trucks.

Tap Truck New England is a mobile bar service offering craft beer, craft cocktails, wine, coffee and more--all poured from the coolest vintage trucks around.

Our trucks are as popular as the beverages we pour from our taps!

Each truck in our fleet has been meticulously restored by hand, because the attention to detail is as important as a refreshing drink on tap.

When searching for new additions to the fleet, we look for vehicles that can be restored to their original beauty while remaining appealing to a modern era.

Our current fleet of vintage trucks provides our clients plenty of cool options.
